

HIKVISION

BLAZER PRO & IVMS-5200

HIKVISION Blazer Pro is an all-in-one server that combines HIKVISION's powerful video management system (VMS) with video storage capacity in one physical server.

IVMS-5200 software is a complete, smart and open management system that provides market-leading powerful solutions. It offers a wide range of VMS functionalities optimised for different types of deployment and usage, for example, safe city, traffic management, finance, buildings, retails and other industries.
