

D2000KIT

MINI DOME DROPPER POLE KIT

The D2000KIT has been designed to accommodate various camera models to suit our APM and FMP series dropper poles. Features a camera plate and decorative covers to suit any application

The D2000KIT is more cost effective, accessible and easy to install thanks to its simplistic model design that has been trusted for many years. It can easily suit any model of camera up to 120mm diameter and can come in 3 colours. It has been Australia's trusted design for all dropper pole needs

The plate and decorative covers can be utilized in various ways also depending on the application
