

CSD-WEB200 DATASHEET

Part Number: CSD-WEB200

Overview:

The CSD-WEB200 is a dual press panic button with key reset, it incorporates a front and back tamper switch and has integrated end of line resistors.

Key Features:

- Innovative patented design allows for easy interchange between latching and momentary settings
 - WEB200A - latching
 - WEB200C - momentary, also convertible between momentary and latching
- EOL resistors included for both alarm and tamper output
- Wide range of selectable EOL resistor values to suit most alarm panels
- Back and front tamper protection
- Two sets of EOL resistor values selectable via DIP switch
 - 0, 1k, 2k, 3.3k 4.7k, 5.6k, 6.8k, 7.9k (part number: WEB200-1)
 - 0, 1k, 3.3k, 4.3k, 6.8k, 7.8k, 10k (part number: WEB200-2)

Specifications:

SWITCH	
Load	1A 30VDC/125VAC
Contact resistance	0.1Ω
Insulating resistance	100MΩ
Mechanical life	100,000 cycles
Operating Environment	-25 ~ 70 °C
DIMENSIONS	
80(H) x 65(W) x 34(D)mm	

* Specifications are subject to change without notice.
