X2RACKS

4RU VERTICAL WALL MOUNT NVR CABINET & FAN KITS

Overview

The new X2 vertical wall mount NVR cabinet has been designed specifically to meet the demands of CCTV installations where there is not enough physical space for a traditional 19" rack mount cabinet but the environment requires a secure and locked enclosure to mount the NVR away from tampering or theft. The RACK-900 provides 4RU vertical space for mounting the NVR and 2RU horizontal space for mounting a patch panel. Allowances have been made for good ventilation and optional fans can be ordered for installations that may be required in hot environments.

PART NO:	DESCRIPTION:
X2-RACK-900	X2 RACKS 4RU NVR vertical wall mount cabinet with 2RU horizontal patch panel space (1070x650x300mm)
