

## DWS250 SERIES DOOR RELEASE

### Overview

The DWS250A series is a key resettable emergency door release that fits a standard single gang mounting box.

The DWS250B series is a key resettable emergency door release with a built-in buzzer and LED for audible and visual indication of activation. It fits a standard single gang mounting box.

The DWS250C protective cover helps avoid accidental activations, especially in high traffic and public areas.
